

ERICH ASSUNCAO

Software Developer and Information Systems Professional

Edmonton, AB (relocating) | +1 437 700-5921 | erichassuncao@gmail.com | linkedin.com/in/erich-a-69a9b01bb | github.com/eassuncao

PROFESSIONAL SUMMARY

Early-career software and information systems professional with production experience building full-stack features using C#, ASP.NET Core, REST APIs, Entity Framework Core, PostgreSQL, TypeScript, Next.js, and React. Recently completed graduate studies in Computing and Information Systems and brings additional strengths in technical documentation, testing, structured analysis, client communication, and practical problem-solving. Interested in junior software development, application analysis, implementation, product support, and other technically substantive roles.

TECHNICAL SKILLS

Development	C#, ASP.NET Core, TypeScript, JavaScript, React, Next.js, Python, HTML, CSS
Backend & Data	REST APIs, Entity Framework Core, PostgreSQL, SQL, relational database design, OpenAPI/Swagger, Postman
Architecture & Quality	CQRS, domain modelling, clean architecture, automated testing, xUnit, WebApplicationFactory, Vitest, Testing Library, API and integration testing
Tools & Platforms	Git, GitHub, GitHub Actions, Visual Studio, VS Code, TanStack Query, MediatR, FluentValidation, Orval, Linux, Windows, macOS, Microsoft Office

PROFESSIONAL EXPERIENCE

Software Engineer (Part-time) iQuirium <i>Remote</i>	Nov 2024–Present
- Build and maintain an AI-powered career development platform using C#, ASP.NET Core, REST APIs, Entity Framework Core, PostgreSQL, TypeScript, Next.js, and React. - Designed and delivered a production user-connections and discovery feature end to end, including database schema, domain rules, backend APIs, typed client generation, and React user interfaces. - Implemented CQRS commands and queries, validation, relationship-aware search and actions, pagination, TanStack Query cache management, and internationalized frontend copy. - Delivered privacy-conscious functionality with approximately 220 automated tests across domain, application, infrastructure, API, and UI layers; feature is deployed to production. - Use GitHub, code review workflows, OpenAPI/Swagger, GitHub Actions, GitHub Copilot, and spec-driven development practices for implementation, testing, debugging, and documentation.	
Counsellor / Psychotherapy-Informed Practitioner Self-Employed <i>Remote</i>	Dec 2022–Present
Provide structured, confidential support in English and Portuguese; prepare organized notes and reports, explain complex information clearly, and manage independent client workflows.	
English–Portuguese Interpreter Self-Employed / Freelance <i>Remote</i>	Jan 2014–Present
Provide professional interpretation in healthcare, legal, community, settlement, and faith-based contexts, requiring accuracy, confidentiality, rapid comprehension, and clear communication.	

SELECTED PROJECTS

User Connections & Discovery Full-Stack Production Feature
- Built a complete invitation and relationship lifecycle with send, accept, decline, cancel, remove, block, unblock, status queries, search, pagination, and relationship-aware actions. - Technologies: C#, ASP.NET Core, EF Core, PostgreSQL, MediatR, FluentValidation, TypeScript, Next.js, React, TanStack Query, Orval, xUnit, Vitest, Testing Library, GitHub Actions.
FASTA Inspector Python Bioinformatics Project
Developed a Python tool for parsing, classifying, and analyzing FASTA sequence files with structured logic, documentation, and test-supported development.
Database Design & SQL Analysis Graduate Project
Created an ERD, normalized PostgreSQL schema, reporting queries, indexes, access controls, and transaction workflows, with SQL-versus-NoSQL architectural analysis.

ADDITIONAL TECHNICAL AND ANALYTICAL PROJECTS

Learning Analytics & Sentiment Analysis | Graduate Project

- Used Python, pdfplumber, pandas, NLTK/VADER, Tableau, and statistical analysis to examine participation, timing, reply patterns, word count, and sentiment in online learning data.

Interactive Dashboards and Data Storytelling | Learning Technology Project

- Created practical examples using Python, pandas, Plotly, Streamlit, Altair, and Deepnote to teach data visualization and interactive dashboard development.

ATID Framework for Gamified Learning | MSc Research

- Developed a graduate research framework connecting gamified learning design with Self-Determination Theory, requiring literature review, synthesis, model development, and technical academic writing.

ADDITIONAL EXPERIENCE

E-commerce Store Owner | The Buyer's Haven (Amazon FBA) | Remote

Mar 2017–Jul 2021

- Managed product research, pricing, inventory, logistics, contractor coordination, financial tracking, and process improvement for a U.S.-market e-commerce operation.

Freelance Web Developer / Web Design Projects | Project-Based | Brazil / Remote

2006–2013

- Built and maintained small informational websites using HTML, CSS, WordPress, content management, and basic graphic design tools.

Administrative Director / IT Support | Taquara Institute of Health and Education | Brazil

Oct 2007–Jul 2011

- Supported institutional systems, users, basic networking, Linux adoption, administration, operations, and cross-functional coordination in a small educational organization.

EDUCATION

Master of Science in Computing and Information Systems | Athabasca University | Alberta

2024–2026

- Coursework completed; final essay completed. Focus included information systems, software development, data analysis, research methods, and learning technology.

Graduate Certificate in Information Technology Management | Athabasca University | Alberta

2023–2024

- Completed with an A grade; credential laddered into the MSc program.

Bachelor of Arts, Psychology & Information Systems | Trent University | Ontario

2019–2023

- President's Honour Roll and Dean's Honour Roll in all academic years; graduated with an A average.

CERTIFICATIONS AND TRAINING

- Complete Guide to Build REST APIs with ASP.NET and C# — Udemy, 2024
- Certificate in Language Interpretation — MCIS Language Solutions, 2014
- Interpreter Language Skills Assessment Tool (Portuguese–English) — Across Languages, 2014
- Remote Interpretation Certificate — Access Alliance, 2022

ADDITIONAL INFORMATION

Languages: English and Portuguese (fluent) Citizenship: Canadian and Brazilian dual citizen
